SUMMARY

Final-year Software Engineering student skilled in backend development (.NET, APIs, relational databases) and full-stack project delivery. Eager to leverage technical skills in a Full-stack Developer role to build production-grade systems.

EDUCATION

Ho Chi Minh City University of Technology (HUTECH) 2023 - 2027

Information Technology (Software engineering)

GPA: 3.71/4.0 (Classification: High Distinction)

WORK EXPERIENCE

GNESISVN TECHNOLOGY CO., LTD. Apr 2026 - Jun 2026

Technical Support & Front-end Intern

- **Developed and optimized** responsive web interfaces (HTML, CSS, JS) to enhance layout structures.
- **Collaborated with the tech team** to troubleshoot hardware and execute post-processing production tasks.

FEATURED PROJECTS

SMART AI-POWERED CV BUILDER Mar 2026 - Present

Full-stack Developer & Database Designer

- Architected a dynamic CV generation platform with automated data extraction powered by Google Gemini/Groq LLMs.
- Designed normalized SQL Server database schemas and optimized RESTful APIs for seamless high-volume data mapping.
- Containerized backend services with Docker and implemented JWT authentication for secure system endpoints.
- **Tech stack:** ASP.NET Core MVC, Vue.js, SQL Server, Docker, LLM APIs.

SKILLS

Languages & Frameworks	C# (.NET Core), Java, JavaScript (Vue.js, React.js), Dart (Flutter).
Databases & Cloud	SQL Server, MySQL, Firebase, Docker, CI/CD (GitHub Actions), AWS (basics).
Tools & Practices	Git, RESTful APIs, Postman, System Architecture, AI Coding Tools (Gemini, Codex)
Soft Skills	Effective Teamwork, Logical Problem Solving, Fast Tech Adoption, Continuous Learning.

CERTIFICATIONS & AWARDS

English Proficiency: B1	2025
Grand Finalist – IT Code War	2025
Participate in the Hackathon - SOLVE WITH AI	2026
Participate in the Hackathon - MLAI HACKATHON	2026
